Feel free to send them in. As I mentioned, we plan to have staff here to receive and log them in if we have a shutdown.

I'm sorry to hear that...would you prefer for me to hold on to them until all of the craziness gets worked out? They are just sitting in our storage and there is plenty of space.

Greg

Thank you, Greg. How many samples should we expect next week?

As a heads up, if the federal government shuts down at the end of this week, the Region 9 Laboratory expects to have lab contractor staff available next week to receive, login, and hold samples for analyses. Most of the EPA staff would be furloughed. We'll follow up with additional information, if necessary.

Thank you.

Good Morning,  
I believe that I have collected the last of the samples for the Riverside Ag project. I plan to get everything together and ship samples to you next week.

Thanks for all of your support  
Greg
